

# Forestry Mulching Mower

Our Forestry Mulching Mower is designed to de-forest an area and return the debris back to the environment. This Forestry Mulching Mower cuts trees up to 14" in diameter and mulches trees up to 6". If you need a powerful, reliable mulching mower in your arsenal, you need our Forestry Mulcher Mower.

FLOATING FRONT DEFLECTOR FACES DOWN TO DEFLECT MULCH TOWARDS THE GROUND

THE COVERED PARKER PISTON MOTOR HAS A HIGH STARTING TORQUE AND IS EXTREMELY EFFICIENT, HIGH QUALITY, AND AMERICAN MADE

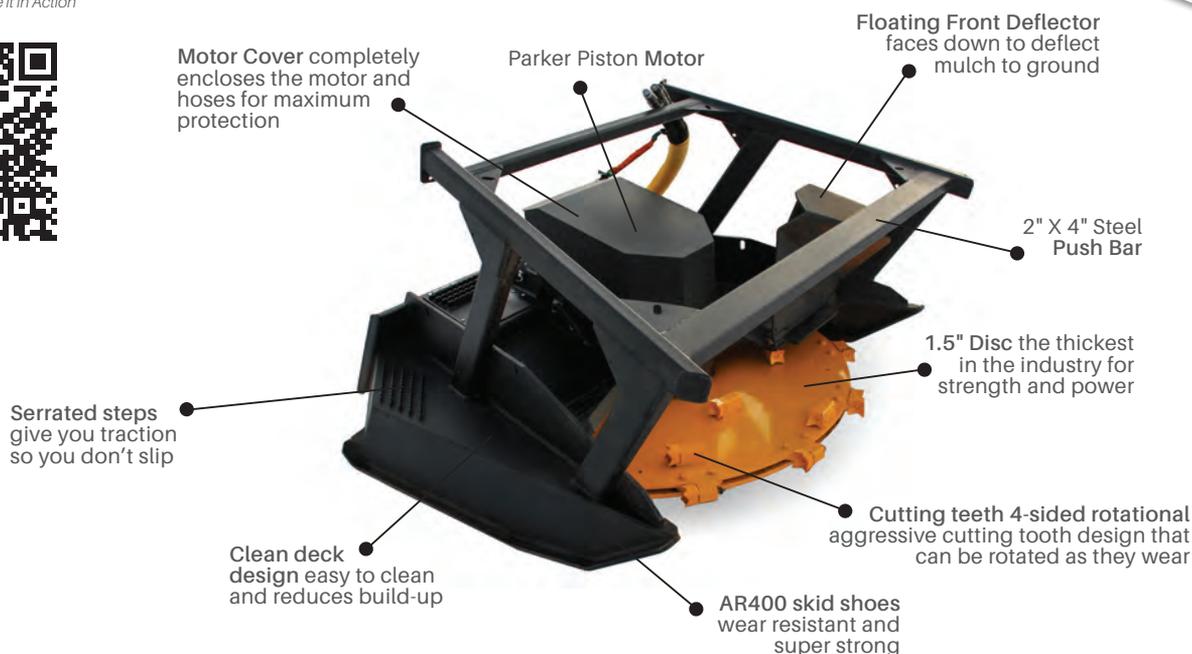

THE 2" X 4" STEEL PUSH BAR HELPS KEEP TREES AND DEBRIS AT BAY

## FEATURES & BENEFITS

- Parker Piston Motor is Made in the USA with the highest quality materials and featuring maximum starting torque
- Motor is covered and a storage compartment on deck stores tools such as replacement tooth ratchet
- 1,045 pounds of disc mass unleashes massive amounts of rotational energy to destroy trees and brush
- 1.5" thick disc is the most durable in the industry and consists of one 3/4" plate and two 3/8" plates
- Top deck is made of grade 50 steel for maximum strength and durability
- Curved shroud at disc rear creates a smooth, consistent mulching chamber increasing efficiency
- Replaceable carbide bullet teeth are designed to withstand contact with rocks and ground debris
- Perimeter cutting teeth are designed to rotate as they wear and easily replaceable
- Tooth holders are heat treated to withstand tough wear and tear with no cracking
- Tooth protector fins are made 3/4" AR400 steel to protect outer teeth from direct impact
- Front deflector is floating on a pivoted joint to flip up so it's not damaged when encountering obstacles and can also be pinned up during maintenance
- Open front mower easily feeds to the disc and increases visibility
- Exclusively designed slanted push bar positioned forward guides trees into mulching chamber, and prevents trees from hanging on deck after cutting

## SPECIFICATIONS / OPTIONS

Model	Mulching Mower
Part Number	901352
Motor Type	Fixed Displacement Piston
Cutting Capacity	Up to 14"
Mulching Capacity	Up to 6"
Weight	2,800 lb.
Height	43"
Width	70"
Length	73"
Cutting Width	60"
Disc Thickness	1.5"
Bearing Carrier	Oil Bath
Output Shaft Diameter	4"
Flange Diameter	12.38"
Flange Bolts	(12) 3/4" Grade 9
Deck Top Material	1/2" Grade 50
Disc Mass With Teeth	1,045 lb.
Skid Shoe Material	1/2" AR400
Flow Rate	32-45 GPM
Pressure Range	3,000-6,000 PSI
RPM At 40 GPM	1,200
Bottom Carbide Teeth Qty.	16
Edge Beaver Teeth Qty.	12
Top Beaver Teeth Qty.	10
Case Drain Line	Required
