

# Hydraulic Breaker

The Hydraulic Breaker makes quick work out of a tough job. The smart and efficient design provides a workhorse with only two moving parts. Vibration and shock are controlled by shock absorbing polymers, minimizing machine wear and sound while improving operator comfort level. Easily smash through concrete, even on an incline, with the hardest hitting breakers in their respective impact energy classes. Only two moving parts, one grease fitting, low recoil and minimal hydraulic pressure spike, and unique trapezoidal shock wave for greater breaking power.

EFFECTIVE NOISE AND  
VIBRATION DAMPING

POWER BOOSTER FOR HIGH  
PERFORMANCE AND LOW VIBRATION

UNIQUE TRAPEZOIDAL SHOCK WAVE  
FOR GREATER BREAKING POWER

Model 210x  
Mounting plate  
included (not shown)

Model 310x  
Mounting plate  
included (not shown)

Model 360x  
Mounting plate  
included (not shown)

Model 410x  
Mounting plate  
included (not shown)

SKID STEER

## FEATURES & BENEFITS

- Power booster for high performance and low vibration
- Central lubrication
- Field replaceable bushing for easier maintenance
- Innovative design with fewer components for higher reliability
- Effective noise and vibration damping
- Highly efficient internal control valve

## SPECIFICATIONS / OPTIONS

Model	210X	310X	360X	410X
Part Number	901546	901547	901548	901538
Carrier Weight Class	4,400-9,900 lb.	6,600-13,200 lb.	8,800-19,800 lb.	11,000-26,500 lb.
Weight	600 lb.	715 lb.	825 lb.	1,035 lb.
Operating Pressure	1,595-2,030 psi	1,595-2,030 psi	1,450-2,030 psi	1,740-2,175
Oil Flow Range	8-13 GPM	9-16 GPM	12-20 GPM	16-24 GPM
Impact Rate	670-1,500 BPM	520-1,300 BPM	530-1,200 BPM	530-1,000 BPM

### Options

Moil Tool Point (standard)

Chisel Tool Point

Blunt Tool Point

Factory Installed Couplers
