

Landscape Seeder

The Landscape Seeder is built to handle all turf and landscape seeds. Grass seed is a very expensive commodity. Notched rollers properly place the grass seed in the top 1/2" of a properly prepared seedbed, resulting in maximum seed germination. Seedbed is left smooth and firm with small stones pressed down. Because of this precision placement seeding rates can be reduced up to half of the rates previously used.

5.75 BUSHEL THREE-COMPARTMENT SEED BOX

3-POINT MOUNT INCLUDED FOR USE WITH COMPACT TRACTORS

UNIQUE AGITATOR BREAK SYSTEM THAT ELIMINATES UNWANTED SEED LOSS WHILE THE SEEDER IS NOT IN CONTACT WITH THE GROUND
