

Soil Conditioner

This versatile unit rakes stones and debris to either side or straight ahead for easy pickup. The aggressive teeth on the large-diameter rotor pulverize soil like an ordinary tiller, with the benefit of faster ground speed. The counter-rotating rotor moves soil ahead of it as it tills, filling in low spots and chewing off high spots. It creates perfect seedbeds and windrows. The Soil Conditioner separates rocks, tears up sod, and pulverizes dirt clods. We rake and till deeper than any of our competitors – as deep as 4”.

CREATE PERFECT SEEDBEDS AND WINDROWS
ROCKS FOR EASY CLEAN-UP

THE DRUM REVOLVES AROUND A
PROPRIETARY ANTI WRAP GUARD: MAKES
WIRE/TWINE WRAP VIRTUALLY IMPOSSIBLE

THIS RIGID SOIL CONDITIONER
SEPARATES ROCKS, TEARS UP SOD,
AND PULVERIZES DIRT CLOUDS

Optional:
Pistol Grip Control Harness
is required if skid steer is
NOT equipped with attach-
ment control system. (Only
needed when ordering
hydraulic angling model).

Large solid rubber
tires allow easier
maneuverability
over rough terrain

Large 10" rotor with our
innovative spiraled tooth
pattern eliminates hopping
in hard dry soils

Direct-Drive motor
gives higher production
with zero maintenance

SKID STEER

FEATURES & BENEFITS

- Direct-drive motor turns large 10" rotor
- Tungsten – carbide teeth
- Power angling (optional)
- Large solid rubber wheels

SPECIFICATIONS / OPTIONS

Model	RSC72	RSC84	RSC96
